**FOR IMMEDIATE RELEASE**

Woodland Hills, CA, (May 1, 2008) — **Comstructure, a leader in Telecommunications Expense Management software solutions and Abilita, a leading nationwide telecommunications consulting company** announced today that they have signed a strategic partnering agreement in which Comstructure will provide a custom version of Comstructure's iCIRT™ Telecom Expense Management (TEM) software application for use by the Abilita consulting offices and their clients. The merging of Comstructure's award winning TEM solution with Abilita's industry leading telecommunications consulting methods and excellent client satisfaction will enable mid-market and enterprise clients to achieve an optimum level of expense management functionality.

According to **Mark Goettling**, Comstructure's President and Co-founder, "Comstructure's incredible team has leveraged our collective financial, operational, development and technological experience to evolve our TSM/TEM solution over the past 10 years. Abilita has always impressed us with their expertise, professionalism and understanding of all aspects of telecommunications. Abilita's collective knowledge coupled with Comstructure's TEM application is a perfect fit for enterprises and municipalities looking for a complete solution for lowering their overall cost of telecommunications while improving productivity exponentially. I personally look forward to a long and rewarding partnership with Abilita and consultants!"

According to **Craig Sweet**, Abilita's, Co-founder and CEO, "Abilita is known for its experienced consultants who provide auditing, optimization, architecture and management of telecommunications projects and services including voice, data, and wireless solutions. With the addition of the Comstructure software, we are now able to provide a full suite of total TEM services for all of our clients."

**iCIRT™ v.2.8** is a **Telecommunications Expense Management (TEM)** application that provides a web enabled application for the management of enterprise telecommunications expenses, contracts, provisioning, rate optimization and change management including voice and data; wired and wireless. **iCIRT™** has proven to be an effective tool in reducing the cost and management of communications expenses that account for approximately 3% to 6% of an enterprise's total annual revenue.

**About Comstructure**

Comstructure is an international telecommunications consulting and application organization focused exclusively on **communication infrastructure** solutions. Our services are based on a solid financial, operational and technological foundation providing our clients with a holistic solution to cost effective and productive wireline and wireless environments.
